MESH™ 19" Painted Touch Screen - 50-22-12

MESH 19" Touch Panels are intercom accessories for the MESH access control and facility management system. MESH panels can be surface or flush mounted. MESH allows building tenants to communicate with visitors and grant or deny entry. Units can display residential or commercial building directory listings with a building specific screen saver. Options include built-in cameras, card access, and elevator control. Multiple panels can be connected on a shared database or to central MESH Servers for complete card access and facility management.
